Re: Intermountain Power Project
B&W Ref: RB-614/615
Subject: Burners For Unit #1

Gentlemen:

Confirming my 1/2/92 telecon with R.K. Krikorian, we have agreed on the date of January 16 for a burner fabrication review meeting to be held in B&W's Paris, Texas manufacturing facility. For your planning purposes, the nearest major airport is Dallas-Fort Worth with Paris being a 2 1/2 hour drive from there (see attached map). We recommend that you stay at the Holiday Inn, Paris (903-785-5545). Please advise who will be attending and if there are any specific discussion items we should prepare for.

Regarding IPP/IPSC's desire to pull up shipments, we see no way of doing so without the use of significant amounts of overtime. B&W's current schedule and price was based on working two shifts, straight time as we have been doing. Our Paris plant advised yesterday that the 4/17/92 date for final shipment could be pulled up to 4/3/92 by working weekend overtime. B&W hereby offers to pull up the final ship date from 4/17/92 to 4/3/92 for a firm price adder to IPP of \$20,000. Should B&W fail to make final shipment on 4/3/92, IPP would not be required to pay this price adder.

In order to avoid losing the opportunity for a 2 week schedule improvement, B&W needs IPP's decision by 1/16/92. If you have any questions or comments, please advise.

Very truly yours,

C.A. Palmberg
Project Manager
